3rd Edition 2019- RAC

Serial No. _____

Head and Face Protection

Blue Eagle HC32 Safety Helmet

Model Number: HC32

Colors: White, Blue, Yellow, Green, Orange

Comes with: Liner, Chin Strap

Materials: ABS

Specification: Electrical Insulation, 6-point Suspension provides better impact resistance, complied with CE, Made in Taiwan.

Blue Eagle M1 Helmet Chin Strap

Model Number: M1

Color: Green

Specification: To prevent from hanging user's and causing injury, chin straps would be broken under a force between 150-250N, Compiled with CEEN397, Made in Taiwan

Blue Eagle M2 Cap Suspension

Model Number: M2

Color: White

Specification: Pin-Lock, 6-point Polyethylene suspension

Blue Eagle SU3R Cap Suspension

Model Number: SU3R

Specification: Ratchet, 6-point nylon Suspension, used with HR36 Safety Cap, complied with CE EN397

Head and Face Protection

Blue Eagle A2 Visor Bracket

Model Number: A2

Color: Black

Material: ABS

Specification: Fit in with regular safety helmets, Used with "FC" series visors, Complied with CE EN166, ANSI Z87

Blue Eagle A3 Visor Bracket

Model Number: A3

Color: Black

Material: ABS/Aluminum Material

Specification: Fit in with regular safety helmets, Used with "FC" series visors, Complied with CE EN166, ANSI Z87

Blue Eagle HG1 Head Gear

Model Number: HG1

Color: Black

Material: Polypropylene

Adjustment: Ratchet

Specification: Use for welding helmets and faceshield.

Blue Eagle HR82 Slotted Helmet

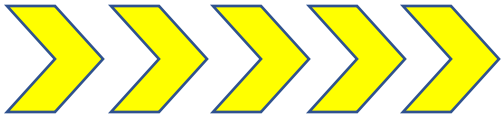

Model Number: HR82

Color: Red, White, Blue, Yellow, Green, Orange

Suspension: Ratchet, 6-point nylon suspension

Specification: Electrical insulation, 6-point suspension provides better impact resistance, complied with ANSI Z89.1

Head and Face Protection

Blue Eagle BP65 Bump Cap

Model Number: BP65

Color: Yellow, Red, Blue, White, Orange, Green

Material: Polyethylene

Suspension: 4-point PE suspension

Specification: The Bump cap is intended to protect the wearer's head against injury caused by striking the head against hard, stationary objects, DO NOT use a bump cap in environment where an Industrial Safety Helmet is required. CE EN812

Blue Eagle M6 Cap Suspension Bump Cap

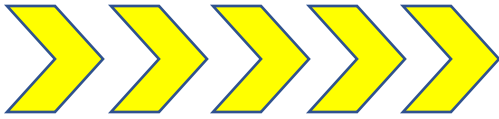

Model Number: M6

Color: White

Specification: Pin-lock, 4-point polyethylene Suspension, used with BP65 Bump Cap, compiled with CE EN397

Head and Face Protection

Blue Eagle 633P Welding Helmet

Model Number: 633P **Color:** Black
Lens Size: 4.25 x 2 or 108 x 51 mm **Material:** Polypropylene
Specification: Lift front lens holder, toughness and moisture proof. Complied with CE, ANSI Z87, CSA Z94.3

Blue Eagle 632P Welding Helmet (Hand Shield)

Model Number: 632P **Color:** Black
Lens Size: 4.25 x 2 or 108 x 51 mm **Material:** Polypropylene
Large Viewing Area: 4.25 x 2
Specification: Toughness and moisture proof. Complied with CE

Blue Eagle 633N Welding Helmet Nylon Type

Model Number: 633N **Color:** Black
Lens Size: 4.25 x 2 or 108 x 51 mm **Material:** Nylon
Specification: Lift front lens holder, toughness and moisture proof. Complied with ANSI

Blue Eagle 6PA3 Welding

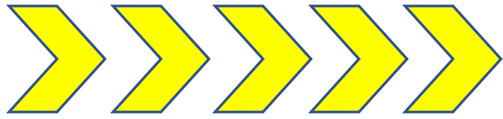

Model Number: 6PA3 **Color:** Black
Lens Size: 4.25 x 2 or 108 x 51 mm **Material:** Propylene
Specification: Lift front lens holder, clip cap welding helmet, Aluminum bracket, moisture proof. Complied with ANSI Z87

Blue Eagle 633N Welding Helmet Nylon Type

Model Number: 633N
Size of Filter: 110x90x9mm/ 133x114x9mm
View Area: 90x 40/ 97x60mm
Power Supply: Lithium Solar Cells (
Working Temperature: -5°C (23°F) to 55°C (131°F)
Shade Number in Light State: Din4#, Dark state: Din9 13#
Response Time: <0.1ms Room temperature
Return Time: Rapid 0.2s Slow 0.8s

Head and Face Protection

Blue Eagle NP312 Chemical Hood

Model Number: NP312

Specification: The Assembly consists of a twin cartridge respirator and a light weight hood, designed to protect head, face, eyes and lungs against dust, paints, solvent, etc PC lenses x 2 PCS (5.5x110x200mm)

Blue Eagle NP901 Arc-Welding Leather Hood

Model Number: NP901

Total Length x Width: 480mm x 650mm

Specification: Lift front lens holder, used in narrow working areas for arc-welding operation

Blue Eagle NP503 Air-Supplied Sandblast Hood

Model Number: NP503

Color: PVC and Nylon Fabric Cloth

Outer Lens: Heat Treated Glass: 114x133x5mm

Inner Lens: Polycarbonate (PC): 114x133x1mm

Safety Cap: Polyethylen

Specification: Designed for all sandblasting operations, air regulator provides smooth and low noise air flow

Blue Eagle NP505 Air Supplied Spray Hood

Model Number: NP505

Specification: Light in weight, replaceable visor, air regulator provides smooth and low noise air flow.

Head and Face Protection

Blue Eagle B1YE Browguard

Model Number: B1YE
Colors: Blue, Yellow, Green, Orange
Materials: High impact resistance ABS
Specification: Fit all FC series visors, made of high impact resistance ABS, provide the best protection, Large cover area for user's forehead, providing full protection, complied with CE EN166, ANSI Z87, CSA Z94.3

Blue Eagle FC25 Face shield

Model Number: FC25 **Colors:** Clear
Materials: Polycarbonate **Size:** 8x 12" (203 x 304mm)
Thickness: 0.8mm
Specification: Provide protection against high-speed impact penetration, and splash of liquids, best optical quality (highest ranking at the tests of spherical refractive power, astigmatic refractive power, prismatic power and light diffusion) protective films both sides. Complied CE CSA

Blue Eagle FC28 Face Shield

Model Number: FC28 **Colors:** Clear
Materials: Polycarbonate **Size:** 8"x12"
Thickness: 1.0mm
Specification: Aluminum bound, Use with "B" series Browguards, for high impact, penetration, splash and heat resistance, complied CE ANSI CSA

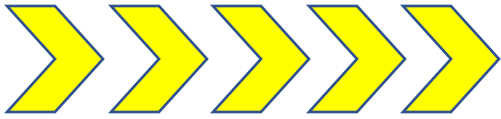

Blue Eagle FC28G5 Faceshield

Model Number: FC28G5 **Color:** Dark Green
Material: PolyCarbonate **Size:** 8 x 12" (203 x 304 mm)
Thickness: 1.0mm
Specification: Provide protections against high-speed impact (120 m/s), penetration, and splash of liquids, Professional UV filter, which filters out 99.9 % of UV rays. ANSI Z87+ Shade Number: U5, Best optical quality (highest ranking at the tests of spherical refractive power, astigmatic refractive power, prismatic refractive power, and light diffusion), Protective films on both sides.

Head and Face Protection

Blue Eagle FC29 Faceshield

Model Number: FC29
Color: Black
Material: Steel Mesh Size: 8 x 12"
Specification: Steel wire mesh (more in heat-resistance), for flying chips and splinters

Blue Eagle FC45 Faceshield

Model Number: FC45
Colors: Clear
Materials: PolyCarbonate
Size: 8 x 15½" (203 x 393 mm)
Thickness: 0.8mm
Specification: : Provide protections against high-speed impact (120 m/s) , penetration, and splash of liquids, Best optical quality (highest ranking at the tests of spherical refractive power, astigmatic refractive power, prismatic refractive power, and light diffusion), Protective films on both sides (prevent damages and scratches during transportation), Aluminum bound (faceshield can be bent/adjusted easily), Complied with CE EN166, CSA Z94.3

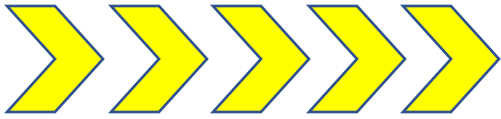

Blue Eagle FC48 Faceshield

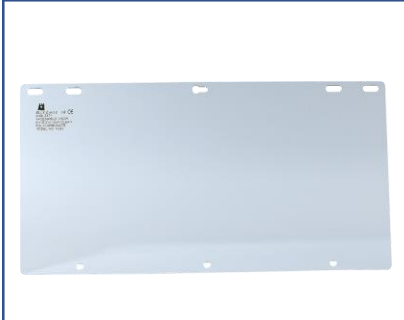

Model Number: FC48
Colors: Blue, Yellow, Green, Orange
Materials: High impact resistance ABS
Specification: Fit all FC series visors, made of high impact resistance ABS, provide the best protection, Large cover area for user's forehead, providing full protection, complied with CE EN166, ANSI Z87, CSA Z94.3

Head and Face Protection

Blue Eagle FC83 Faceshield

Model Number: FC83
Color: Clear
Material: Polycarbonate Size: 8" x 15½" Thickness: 1.0mm
Specification: Without Aluminum bound, Assembled with C3 chin guard and "B" series browguards, providing extra protection

Blue Eagle K4YE Browguard

Model Number: K4YE
Colors: Blue, Yellow, Green, Orange
Materials: High impact resistance ABS
Specification: Fit all FC series visors, made of high impact resistance ABS, provide the best protection, Large cover area for user's forehead, providing full protection, complied with CE EN166, ANSI Z87, CSA Z94.3

Blue Eagle K25 Faceshield

Model Number: K25
Color: Clear
Material: Polycarbonate
Size: 8 x 12" (203 x 304 mm)
Thickness: 0.8 mm
Specification: Provide protections against high-speed impact (120 m/s), penetration, and splash of liquids, Best optical quality (highest ranking at the tests of spherical refractive power, astigmatic refractive power, prismatic refractive power, and light diffusion), Protective films on both sides, Complied with CE EN166, CSA Z94.3

Blue Eagle C3YE Chin Guard

Model Number: C3YE
Color: Yellow, Blue, Orange, Gree
Material: Impact Resistant ABS
Specification: Providing extra face protection, Assembled with FC73 or FC83 visors and "B" series browguards

Eyewear Protection

Blue Eagle NP102 Safety Goggles

Model Number: NP102
Color: Clear
Material: Polycarbonate Thickness: 1.0mm
Specification: Provide protections against impact and dust, Best optical quality (highest ranking at the tests of spherical refractive power, astigmatic refractive power, prismatic refractive power, and light diffusion) Complied with CE EN166, ANSI Z87

Blue Eagle NP103 Safety Goggles

Model Number: NP103
Color: Clear
Material: Cellulose Acetate Thickness: 1.0mm
Specification: Anti-Fog [CE Certified] for impact and dust, Direct venting

Blue Eagle NP104 Safety Goggles

Model Number: NP104
Color: Clear
Material: Polycarbonate Thickness: 1.0mm
Specification: Provide protections against impact and dust, Best optical quality (highest ranking at the tests of spherical refractive power, astigmatic refractive power, prismatic refractive power, and light diffusion) Complied with CE EN166, ANSI Z87

Blue Eagle NP105 Safety Goggles

Model Number: NP105
Color: Clear
Material: Cellulose Acetate
Thickness: 1.0mm
Specification: Anti-fog (approved by CE standard), Indirect valve, used for fog, fine dust, and chemical splash.

Eyewear Protection

Honeywell LG100A Safety Goggles

Model Number: LG100A

Lens: Clear Polycarbonate

Frame: Clear PVC

Coating: Anti-scratch / Anti-Fog

Specification: Asian face design, Large area of “Shark Gill” air vent makes the goggle breath freely and more comfortable with long time wear, Indirect vent holes offer better safety and decrease the risk of chemical splash and particulates into eyes, Extended design of the nose pad leads to better comfort and fit, Widened head band with elastic nylon can reduce the pressure to head and maintains excellent flexibility & comfort for long term use, Can be worn over normal glasses as an OTG

Honeywell V-Maxx™ Safety Goggles

Model Number: V-Maxx™

Lens: Clear Polycarbonate

Body: Indirect Ventilation

Headband: Elastic ,

Coating: Anti-scratch / FogBan

Specification: Fits a wide variety of workers and can be worn over prescription eyewear and with half-mask respirators, Selection of various strap materials to ensure stability for all types of environments, (i.e. neoprene strap for use in chemical industry), Rotating strap attachments for easier use with hard hats, Special concept of indirect ventilation to comply with splash-resistance test, Lens options in polycarbonate or acetate, Lens protectors available to increase V-Maxx lifetime

Eyewear Protection

Blue Eagle SG154 Safety Goggles

Model Number: SG154
Color: Clear
Material: Polycarbonate
Thickness: 1.5mm
Specification: Provide protections against high speed impact (120 m/s) and dust, Best optical quality (highest ranking at the tests of spherical refractive power, astigmatic refractive power, prismatic refractive power, and light diffusion), Complied with CE EN166, ANSI Z87

Blue Eagle NP1063 Gas Welding Goggles

Model Number: NP1063
Color: Green
Material: Polycarbonate **Thickness:** 1.0mm
Specification: Provide protections against impact and dust, Professional UV filter, which filters out 99.9% of UV rays. ANSI Z87 Shade Number: U3, Best optical quality (highest ranking at the tests of spherical refractive power, astigmatic refractive power, prismatic refractive power, and light diffusion), Complied with ANSI Z87

Blue Eagle GW250 Gas Welding Goggles

Model Number: GW250
Color: Dark Grey
Specification: Lift-front type lenses holder, Used for both of welding and chipping operation

Eyewear Protection

Honeywell A700 Safety Spectacles

Model Number: A700 **Lens:** Clear Hard Coat
Frame: Clear **Coating:** FogBan / Anti-scratch
Specification: Affordably priced sporty Styling, Lightweight design with sport temples and soft temple tip pads. Moulded universal nose bridge, 8-base polycarbonate abrasion resistant lenses, Secure wrap around lens design

Honeywell A700 Safety Spectacles

Model Number: A700 **Lens:** Grey TSR Hard Coat
Frame: Grey Polycarbonate **Coating:** Anti-scratch
Specification: Affordably priced sporty Styling, Lightweight design with sport temples and soft temple tip pads. Moulded universal nose bridge, 8-base polycarbonate abrasion resistant lenses, Secure wrap around lens design

Honeywell A800 Safety Spectacles

Model Number: A800 **Lens:** Clear Hard Coat
Frame: Clear **Coating:** FogBan / Anti-scratch
Specification: Slim profile provides an ideal fit for workers with smaller faces. Sporty styling provides a fashionable fit, 9-base polycarbonate abrasion resistant lenses, provide a 180° field of distortion-free vision, temples feature soft and padded inserts with extra flex built in Soft nosepiece conforms to various nose bridge shapes Lightweight: 22 gr

Honeywell A800 Safety Spectacles

Model Number: A800 **Lens:** Grey TSR Hard
Coat Frame: Grey **Coating:** Anti-scratch
Specification: Slim profile provides an ideal fit for workers with smaller faces. Sporty styling provides a fashionable fit, 9-base polycarbonate abrasion resistant lenses, provide a 180° field of distortion-free vision, temples feature soft and padded inserts with extra flex built in Soft nosepiece conforms to various nose bridge shapes Lightweight: 22 gr

Eyewear Protection

Honeywell A800 Safety Spectacles

Model Number: A800 **Lens:** Silver
Coat Frame: I/O Hard Coat **Coating:** Anti-scratch
Specification: Slim profile provides an ideal fit for workers with smaller faces. Sporty styling provides a fashionable fit, 9-base polycarbonate abrasion resistant lenses, provide a 180° field of distortion-free vision, temples feature soft and padded inserts with extra flex built in Soft nosepiece conforms to various nose bridge shapes Lightweight: 22 gr

Honeywell A900 Safety Spectacles

Model Number: A900 **Lens:** Grey TSR Hard
Frame: Black **Coating:** Anti-scratch / FogBan
Specification: Sporty, 8-base wrap-around polycarbonate lens, Non-slip rubber nose bridge, temples with soft, padded inserts provide a comfortable fit, Available with scratch-resistant hardcoating, Dielectric frame, Complies with ANSI Z87 + high impact standard

Honeywell VisiOTG-A Over-The-Glass-Spectacles

Model Number: VisiOTG-A
Lens: Clear Hard Coat
Frame: Clear
Coating: Anti-scratch / FogBan
Specification: Specifically designed for asian faces wearer (easy fit over prescription eyewear), This Over-The-Glass spectacles provides a wrap-around fit providing a wide field of view, Light, balanced frame for a comfortable fit, perforated temples for safety cord, Complies with ANSI Z87 + high impact standard

Hearing Protection

Blue Eagle NP353 Earplugs

Model Number: NP353
Material: PVC
Color: Yellow
Specification: With Yellow plastic case, key chain & neck string Complied with CE SNR = 26dB and ANSI NRR = 23 dB

Blue Eagle NP363 Earplugs

Model Number: NP363
Material: TPR
Color: Blue
Specification: Provide good noise attenuation and protect wearer's ears from loud noises, Reusable type, With blue plastic box and metal key chain, With neck string, CE SNR = 29dB and ANSI NRR = 25dB

Honeywell MAX® Earplugs

Model Number: Max-1
Color: Coral
Style: Uncorded
NRR: 33
Material: Polyurethane Shape: Bell
Size: Universal
Packaging: PolyBag [200 per box]
Specification: The world's most-used polyurethane foam earplug, Bell shape delivers maximum in-ear comfort, Contoured design easier to insert, resists tendency to back-out of ear canal, Polyurethane foam enhances comfort, especially for long-term wear, Smooth, soil-resistant closed cell-foam skin prevents dirt build-up, Bulk refills for Leight® Source 400 and Leight® Source 500 Earplug Dispensers save time, waste and space

Hearing Protection

Honeywell MAX® Earplugs

Model Number: Max-30
Color: Coral
Style: Corded
NRR: 33dB
Material: Polyurethane Foam Shape: Bell
Size: Universal
Packaging: 100 pair of Earplugs per box
Specification: The world's most-used polyurethane foam earplug, Bell shape delivers maximum in-ear comfort, Contoured design easier to insert, resists tendency to back-out of ear canal, Polyurethane foam enhances comfort, especially for long-term wear, Smooth, soil-resistant closed cell-foam skin prevents dirt build-up, Bulk refills for Leight® Source 400 and Leight® Source 500 Earplug Dispensers save time, waste and space

Honeywell Laser Lite® Earplugs

Model Number: LL-1
Color: Magenta / Yellow
Style: Uncorded
NRR: 32dB
SNR: 35dB
Material: Polyurethane Foam
Shape: T-Shape
Canada Class: A(L)
Specification: Vibrant colors make protection visible, Self-adjusting polyurethane foam expands to fit virtually every wearer Contoured T-shape for easy insertion and wear Smooth, soil-resistant closed cell-foam skin prevents dirt build-up, Available in paper bag packaging and/or with cotton cords for process industries [pulp & paper] Bulk refills for Leight Source 400 and Leight Source 500 Earplug Dispensers save time, waste and space

Hearing Protection

Honeywell Laser Lite® Earplugs

Model Number: LL-30

Color: Magenta / Yellow

Style: Corded

NRR: 32dB

SNR: 35dB

Material: Polyurethane Foam

Shape: T-Shape

Canada Class: A(L)

Specification: Vibrant colors make protection visible, Self-adjusting polyurethane foam expands to fit virtually every wearer Contoured T-shape for easy insertion and wear Smooth, soil-resistant closed cell-foam skin prevents dirt build-up, Available in paper bag packaging and/or with cotton cords for process industries [pulp & paper] Bulk refills for Leight Source 400 and Leight Source 500 Earplug Dispensers save time, waste and space

Honeywell Max Lite® Earplugs

Model Number: LPF-1

Color: Green

Style: Uncorded

NRR: 30dB

SNR: 34dB

Material: Polyurethane Foam Shape: T-Shape

Canada Class: A(L)

Specification: Ideal size for workers with smaller ear canals, Low pressure polyurethane foam expands gently for comfortable long-term wear,, Contoured T-shape for easy handling and wear, Smooth, soil-resistant closed cell-foam skin prevents dirt build-up, Optional style with attached cotton cord and paper bag packaging suitable for pulp & paper and other process industries with zero tolerance for packaging waste requirements, Bulk refills for Leight Source 400 and Leight Source 500 Earplug Dispensers save time, waste and space

Hearing Protection

Honeywell Max Lite® Earplugs

Model Number: LPF-30

Color: Green

Style: Corded

NRR: 30dB

SNR: 34dB

Material: Polyurethane Foam

Shape: T-Shape

Canada Class: A(L)

Specification: Ideal size for workers with smaller ear canals, Low pressure polyurethane foam expands gently for comfortable long-term wear,, Contoured T-shape for easy handling and wear, Smooth, soil-resistant closed cell-foam skin prevents dirt build-up, Optional style with attached cotton cord and paper bag packaging suitable for pulp & paper and other process industries with zero tolerance for packaging waste requirements, Bulk refills for Leight Source 400 and Leight Source 500 Earplug Dispensers save time, waste and space

Honeywell AirSoft® Earplugs

Model Number: AS-30R

Color: Blue

Style: Uncorded

NRR: 27dB **SNR:** 30dB

Material: TPE

Shape: 4 Flange Canada

Class: A

Specification: Advanced air pocket design features internal noise-blocking fins, Four-flange profile creates better seal in the ear canal, Less pressure in the ear canal eliminates that “plugged up” feeling, Rounded flanges, tapered shape fits better in the ear canal, Firm stem facilitates easy insertion and removal, Outstanding noise-blocking protection

Hearing Protection

Honeywell Quiet® Earplugs

Model Number: QD-30
Color: Orange
Style: Uncorded / Polycord
NRR: 26dB
SNR: 28dB
Material: Vinyl Shape: Bell Canada Class: A(L)
Specification: Patented "no-roll" design is easy to handle and fit, Contoured shape comfortably matches contours of the ear canal, Smooth, non-irritating skin provides all-day comfort, easy to clean for long-term use, Built-in insertion stem makes insertion quick and easy

Honeywell SmartFit® Earplugs

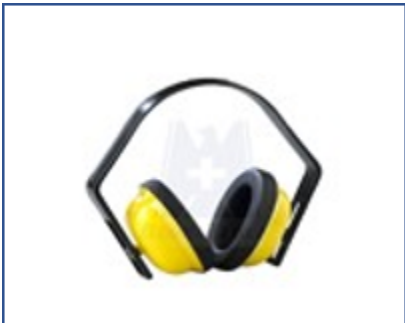

Model Number: SMF-30
Color: Orange
Style: Detachable Nylon Cord
NRR: 25dB
SNR: 30dB
Material: TPE
Shape: 3 Flange
Canada Class: A(L)
Specification: Patented Conforming Material Technology uses body heat to adapt to the individual shape of each wearer's ear canal, Delivers superior comfort and a truly individual fit, Simplifies inventory control - a single product fits almost every wearer, Detachable cord system and HearPack storage case

Hearing Protection

Blue Eagle EM62 Earmuffs

Model Number: EM62
Color: Yellow
NRR: 17dB
Specification: Light in weight, It can be worn in 3 positions - Overhead, behind neck or under chin, Complied with ANSI

Blue Eagle EM65 Earmuffs

Model Number: EM65
Color: Yellow
NRR: 15dB
Specification: Light in weight, The headband can be folded, It can be worn in 3 positions - Overhead, behind neck or under chin, Complied with ANSI

Blue Eagle EM66 Earmuffs

Model Number: EM66
Color: Orange
NRR: 24dB
Specification: Impact-resistant ABS ear cup, the headband can be folded, it can be worn in 3 positions - - Overhead, behind neck or under chin, Complied with ANSI

Blue Eagle EM92 Earmuffs

Model Number: EM92
Color: Red NRR: 24dB
Specification: Very comfortable to wear, foam ear cushion, foam head cushion, suitable for continuous use over long periods, it can be worn in 3 positions - - Overhead, behind neck or under chin, Complied with ANSI

Hearing Protection

Honeywell Clarity® Earmuffs

Model Number: C1H
Color: Metallic Blue
Style: Helmet
Material: Plastic
NRR: 20dB
Packaging: Individual Box
Canada: B

Specification: Uniform attenuation allows wearer to hear co-workers, instructions, and other important sounds more naturally while blocking out harmful noise, Dielectric construction suitable for all workplaces, especially electrical environments, Uniform headband pressure for all head sizes, providing better comfort for long-term wear, Inner-ventilated headband minimizes pressure on the head, breathes easier in warm/humid climates, Non-deforming outer headband withstands rough treatment in the toughest workplaces, Quick-Click height adjustment remains fixed during wear, Snap-in ear cushions make replacement quick and easy

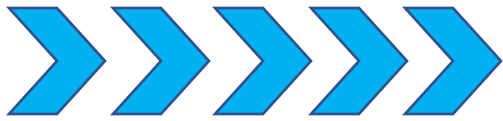

Honeywell Leightning® Earmuffs

Model Number: : L1
Color: Light Gray
Style: Headband
NRR: 25dB
Specification: Contemporary low profile style, Affordable, entry-level price point, Adjustable foam headband and super soft ear cushions, Black headband with light gray earcups

Hearing Protection

Honeywell Leightning® Earmuffs

Model Number: L1H

Color: Light Gray

Style: Helmet

Material: Metal

NRR: 23dB

Packaging: Individual Box

Canada: B[L]

Specification: Robust steel headband withstands demanding use, especially in tough environments, Snap-in ear cushions make replacement quick and easy, Padded foam headband delivers long-wearing comfort with minimal pressure on the head, Three attenuation levels allow for targeted attenuation for a variety of applications, Telescopic height adjustment remains fixed during use, Delivers high degree of comfort; ideal for situations where compact earmuffs and reliable Noise-Blocking protection are required, Helmet earmuffs available to fit a variety of hard hats, including Honeywell North® Hard Hats

Honeywell Leightning® Hi-Visibility Earmuffs

Model Number: L1H-HV

Color: Bright Green

Style: Helmet

NRR: 23dB

Packaging: Individual Box

Canada: B[L]

Specification: Bright green earcups provide high visibility and contrast, Reflective padded headband illuminates under light for increased visibility and safety, Ideal to wear at night, during the day, in low light and under inclement weather conditions, Patented Air Flow Control™ technology provides optimal attenuation across all frequencies, Robust steel headband withstands demanding use, especially in tough environments, Snap-in ear cushions make replacement quick and easy Padded foam headband delivers long-wearing comfort with minimal pressure on the head, Telescopic height adjustment remains fixed during use

Hearing Protection

Honeywell Lightning® Earmuffs

Model Number: L1N

Color: Light Gray

Style: Neckband

NRR: 25dB

Specification: Sleek, anatomic behind-the-neck design, Ideal when wearing caps or hats, Includes headband strap for better positioning, Light gray earcups

Honeywell Lightning® Earmuffs

Model Number: L2

Color: Dark Gray

Style: Headband

NRR: 27dB

Specification: Air Flow Control™ Technology provides better, consistent attenuation, especially at low frequencies, Optimal protection for virtually all noise frequency environments, Robust design withstands demanding use, especially in tough environments, Snap in ear cushions makes cushion replacement quick and easy, Padded foam headband delivers long wearing comfort, Minimal headband pressure on the head, Telescoping height adjustment for individual setting and personalized comfort, and remains fixed during use, Contemporary design improves worker acceptance and compliance, Medium profile cup

Honeywell Lightning® Earmuffs

Model Number: L3

Color: Black

Style: Headband

NRR: 30dB

Specification: High attenuation earmuff, Lightweight earmuff combines maximum protection and contemporary style, Adjustable headband offers a custom fit, Super soft ear cushions that deliver long-wearing comfort, Black headband with black earcups

Hearing Protection

Honeywell Lightning® Hi-Visibility Earmuffs

Model Number: L2F-HV

Color: Bright Green

Style: Folding

NRR: 27dB

Material: Metal

Specification: Bright green earcups provide high visibility and contrast, Reflective padded headband illuminates under light for increased visibility and safety, Ideal to wear at night, during the day, in low light and under inclement weather conditions, Patented Air Flow Control™ technology provides optimal attenuation across all frequencies, Robust steel headband withstands demanding use, especially in tough environments, Snap-in ear cushions make replacement quick and easy Padded foam headband delivers long-wearing comfort with minimal pressure on the head, Telescopic height adjustment remains fixed during use

Honeywell Lightning® Earmuffs

Model Number: L3H

Color: Black

Style: Helmet

Material: Metal

NRR: 27dB

Packaging: Individual Box

Canada: A[L]

Specification: Robust steel headband withstands demanding use, especially in tough environments, Snap-in ear cushions make replacement quick and easy, Padded foam headband delivers long-wearing comfort with minimal pressure on the head, Three attenuation levels allow for targeted attenuation for a variety of applications, Telescopic height adjustment remains fixed during use, Delivers high degree of comfort; ideal for situations where compact earmuffs and reliable Noise-Blocking protection are required, Helmet earmuffs available to fit a variety of hard hats, including Honeywell North® Hard Hats.

Hearing Protection

Honeywell Lightning® Hi-Visibility Earmuffs

Model Number: L3-HV

Color: Bright Green

Style: Headband

Material: Metal

NRR: 30dB

Packaging: Individual Box Canada: A[L]

Specification: Bright green earcups provide high visibility and contrast, Reflective padded headband illuminates under light for increased visibility and safety, Ideal to wear at night, during the day, in low light and under inclement weather conditions, Patented Air Flow Control™ technology provides optimal attenuation across all frequencies, Robust steel headband withstands demanding use, especially in tough environments, Snap-in ear cushions make replacement quick and easy Padded foam headband delivers long-wearing comfort with minimal pressure on the head, Telescopic height adjustment remains fixed during use

Honeywell Thunder® Earmuffs

Model Number: T3

Color: Black

Style: Headband

Material: Plastic

NRR: 30dB

Packaging: Individual Box

Canada: A

Specification: Dielectric construction suitable for all workplaces, especially electrical environments, Uniform headband pressure for all head sizes, providing better comfort for long-term wear, Non-deforming outer headband withstands rough treatment in the toughest workplaces, Quick-Click height adjustment remains fixed during wear, Snap-in ear cushions make replacement quick and easy, Helmet earmuffs available to fit a variety of hard hats, including Honeywell North® Hard Hats

Respiratory Protection

Blue Eagle NP305 Single Respirator

Model Number: NP305

Color: Black

Material: TPR

Specification: Single filter cartridge, Twin exhalation valve, Use with RC series filters: RC201, RC202 , RC203 , RC205 , RC206 , RC209.

Blue Eagle NP306 Double Respirator

Model Number: NP306

Color: Black

Material: TPR

Specification: Twin filter cartridge, Twin exhalation valve, Use with RC series filters: RC201, RC202 , RC203 , RC205 , RC206 , RC209

Blue Eagle RC201 Cartridge

Model Number: RC201

Specification: Use with NP305 and NP306, for dust

Blue Eagle RC202 Cartridge

Model Number: RC202

Specification: Use with NP305 and NP306, for organic vapours, mists and fumes of low toxicity

Respiratory Protection

Blue Eagle RC203 Cartridge

Model Number: RC203

Specification: Use with NP305 and NP306, for spray painting and organic vapours of low toxicity

Blue Eagle RC205 Cartridge

Model Number: RC205

Specification: Use with NP305 and NP306, for acid gases of low toxicity

Blue Eagle RC206 Cartridge

Model Number: RC206

Specification: Use with NP305 and NP306, for organic, inorganic vapours and acid gases of low toxicity

Blue Eagle RC209 Cartridge

Model Number: RC209

Specification: Use with NP305 and NP306, for agricultural sprays

Respiratory Protection

Blue Eagle PF5 Dust Filter

Model Number: PF5

Specification: Use with NP305 and NP306, Can be used as prefilter for cartridge/filter, that can make your cartridge/filter to have a longer life. (Before lock up your cartridge, you put one piece of dust filter on the top of cartridge/filter.)

Blue Eagle NP307 Single Respirator

Model Number: NP307

Color: Black

Material: TPR

Specification: Single filter cartridge, Twin exhalation valve, Use with RC series filters: RC1, RC2, RC3, RC5, RC6, RC9.

Blue Eagle NP308 Single Respirator

Model Number: NP308

Color: Black

Material: TPR

Specification: Twin filter cartridge, Twin exhalation valve, Use with RC series filters: RC1, RC2, RC3, RC5, RC6, RC9.

Blue Eagle RC1 Cartridge

Model Number: RC1

Specification: Use with NP307 and NP308, for dust

Respiratory Protection

Blue Eagle RC2 Cartridge

Model Number: RC2

Specification: Use with NP307 and NP308, for organic vapors mists and fumes of low toxicity.

Blue Eagle RC3 Cartridge

Model Number: RC3

Specification: Use with NP307 and NP308, for spray painting and organic vapors of low toxicity

Blue Eagle RC5 Cartridge

Model Number: RC5

Specification: Use with NP307 and NP308, for acid gases of low toxicity

Blue Eagle RC6 Cartridge

Model Number: RC6

Specification: Use with NP307 and NP308, for organic, inorganic vapours and acid gases of low toxicity

Respiratory Protection

Blue Eagle RC9 Cartridge

Model Number: RC9

Specification: Use with NP307 and NP308, for agricultural sprays

Blue Eagle PF7 Dust Filter

Model Number: PF7

Specification: Use with NP307 and NP308, Can be used as prefilter for cartridge/filter, that can make your cartridge/filter to have a longer life. (Before lock up your cartridge, you put one piece of dust filter on the top of cartridge/filter.)

Blue Eagle PF3A Filter

Model Number: PF3A

Specification: Use with NP22A, activated carbon dust filter

Blue Eagle NP303 Single Respirator

Model Number: NP303

Color: Black

Material: TPR

Specification: Single filter cartridge, Twin exhalation valve, Use with RC101

Respiratory Protection

Blue Eagle NP304 Double Respirator

Model Number: NP304

Color: Black

Material: TPR

Specification: Twin filter cartridge, Twin exhalation valve, Use with RC101

Blue Eagle RC101 Cartridge

Model Number: RC101

Specification: Use with NP303 and NP304, Dust filter

Blue Eagle NP22 Dust Mask

Model Number: NP22

Specification: Comfortable wearing, The mask is to block unusual smell, fine dust, and small particles

Blue Eagle PF2 Filter

Model Number: PF2

Specification: Use with NP22, Dust Filter

Respiratory Protection

Honeywell FFP3 NR D with Valve

Model Number: FFP3

Specification: Folding respirator packed in a tightly sealed individual bag to prevent contamination.

Fluid-resistant outer shell to reduce risks of contamination.

Ultra-soft hypoallergenic Willtech™ nose seal with absorption properties and a tight film. Preformed and coloured nose bridge to save time to perfectly adjust the mask and to

instantly identify its protection level. Shielded exhalation

valve with an exclusive design to breathe easily and to avoid

any risk of leakage due to a membrane damage. Vast interior

volume with built-in chin piece for a better fit and a

communication made easier. Elasticated sliding straps, highly

flexible and resistant, to increase comfort and safety and to

ease donning/doffing. Lightweight respirators (15g) to reduce

wearers' fatigue. No latex, no silicone, nor PVC. Dolomite-

tested. Box dispenser to save time.

Honeywell H801V N95 w/ Valve

Model Number: H801V

Protection level: KN95

Material: non-woven fabric and electrostatic fiber

Specification: Anti PM2.5, anti fog, dustproof, anti bacteria

Honeywell H801 N95 Particulate Respirator

Model Number: H801

Size: 25 x 14 x 17

Weight: 0.4kg

Specification: Value priced high quality N95 mask, Enhanced comfort due to easily adjustable nose bridge,

Extra smooth foam strip inside the mask, Easy to breathe through because of robust filter media

Respiratory Protection

Honeywell RU8500 Series Half Mask

Model Number: RU8500

Specification: Silicone face piece is soft and flexible to provide workers with a comfortable fit for hours of use, Dual flange silicone provides a more comfortable and secure fit, Features a speaking diaphragm offer better speech clarity for improved communication.

Honeywell RU6500 Series Full Facepiece

Model Number: RU6500

Specification: Choose from a 5-point strap or industrial mesh headnet to fit your comfort and needs, Silicone skirt offers exceptional durability and comfort, All straps are attached to the rim of the facepiece, rather than the silicone skirt, to reduce pressure points and distortion of the sealing surface when tightened, Replaceable, high impact resistant polycarbonate lens treated with anti-scratch coating Mask designed with a wide viewing area offering distortion free visibility and optical clarity

North 550030M Half Mask

Model Number: 550030M

Size: Medium

Specification: The North 550030M is a low cost and disposable version of the 7700 series of half masks. They are comfortable and efficient in design just like the 7700 series. All the parts of this mask are replaceable, extending the lifetime of the respirator. This mask is size medium. Available in sizes small, medium and large

Respiratory Protection

Honeywell N75001L Cartridge

Model Number: N75001L
Specification: Organic Vapor , Approved for use against organic vapors

Honeywell N75002L Cartridge

Model Number: N75002L
Specification: Acid Gas Cartridge, Approved for use against acid gases (Chlorine, Hydrogen Chloride, Sulfur Dioxide, Hydrogen Fluoride and Chlorine Dioxide) and Formaldehyde

Honeywell N750031L Cartridge

Model Number: N750032L
Specification: Organic Vapor, Chlorine, Hydrogen Chloride, Sulfur Dioxide, Hydrogen Fluoride, Chlorine Dioxide Cartridge

Honeywell N75004L Cartridge

Model Number: N75004L
Specification: Ammonia & Methylamine, Approved for use against Ammonia & Methylamine

Honeywell N750052L Cartridge

Model Number: N750052L
Specification: Mercury Vapor Cartridge with ESLI
 Mercury Vapor and Chlorine with End-of-Service Life Indicator (ESLI) for Mercury Vapor

Honeywell Electrical Gloves

Specification: Latex gloves offer the widest range of conditions for use from 650 Volts to 4000 Volts and possess high dielectric characteristics, making them perfect for use in many electrical applications, from low voltage to high voltage. Available in 2.5 KV, 5 KV, 10 KV, 20 KV, 30 KV and 40 KV

Honeywell Overprotective Gloves

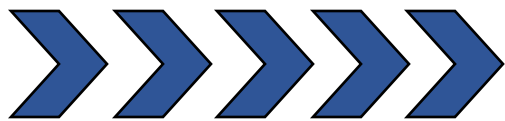

Specification: Yellow cowhide grain leather overglove. Water-repellent and silicon treatment. Gunn cut, thumb in one piece, gauntletless Velcro® adjustment strap on the back. 150 mm split leather cuff sewed outside.

Honeywell Cryogenic Gloves

Specification: Water-repellent silicone cowhide grain leather glove, fully lined with 2 aluminium/fleece layers. Gunn cut, winged thumb, crispin type Reinforcement between thumb and index. 200 mm split leather cuff.

Hand Protection

Nitriguard Plus™ - LA132G

Size: S, M, L, XL

Specification: Provide an effective replacement for neoprene, natural rubber and vinyl supported gloves. The LA132G resist punctures and abrasions, while flock lining gives extra comfort working with oils, petroleum solvents, or greases.

Phillyx Nitrile Gloves

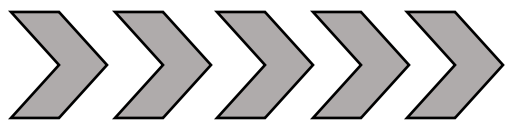

Size: L, XL

Specification: Double wall thickness: ± 0.93 mm

- Pure cotton flock line nitrile formula glove
 - Open cuff allows natural ventilation to keep hand cool
- Does not contain latex protein, suitable for sensitive skin
- Compliant for food contact
 - Good abrasion and puncture resistance for long lasting
 - High resistance to many solvents and oil based chemicals
 - Highly flexible and comfortable for an excellent dexterity
 - Superior raised diamond grip pattern on palm to ensuring good grip in both wet & dry conditions

Certificate: EN 420, EN 388:2003, EN 374-1:2003

Aluminized Wear

Blue Eagle AL1 Aluminized Hood

Model: AL1

Material: Woven fabric of a modified acrylic fiber over a fiberglass core yarn, aluminized one side

Specification: The aluminized clothing is designed to provide protections against thermal and mechanical risks, Ideal for use in steel mills, casting shops, heat treating operations and foundries, The aluminized clothings are tested according the following methods

Blue Eagle AL2 Aluminized Coat

Model: AL2

Material: Woven fabric of a modified acrylic fiber over a fiberglass core yarn, aluminized one side

Specification: The aluminized clothing is designed to provide protections against thermal and mechanical risks, Ideal for use in steel mills, casting shops, heat treating operations and foundries, The aluminized clothings are tested according the following methods

Blue Eagle AL3 Aluminized Trouser

Model: AL3

Material: Woven fabric of a modified acrylic fiber over a fiberglass core yarn, aluminized one side

Specification: The aluminized clothing is designed to provide protections against thermal and mechanical risks, Ideal for use in steel mills, casting shops, heat treating operations and foundries, The aluminized clothings are tested according the following methods

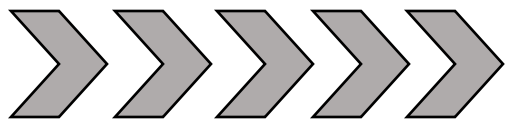

Blue Eagle AL4 Aluminized Boots

Model: AL4

Material: Woven fabric of a modified acrylic fiber over a fiberglass core yarn, aluminized one side

Specification: The aluminized clothing is designed to provide protections against thermal and mechanical risks, Ideal for use in steel mills, casting shops, heat treating operations and foundries, The aluminized clothings are tested according the following methods

Aluminized Wear

Blue Eagle AL5 Aluminized Gaiters

Model: AL5

Material: Woven fabric of a modified acrylic fiber over a fiberglass core yarn, aluminized one side

Specification: The aluminized clothing is designed to provide protections against thermal and mechanical risks, Ideal for use in steel mills, casting shops, heat treating operations and foundries, The aluminized clothings are tested according the following methods

Blue Eagle AL6 Aluminized Apron w/ Sleeves

Model: AL6

Material: Woven fabric of a modified acrylic fiber over a fiberglass core yarn, aluminized one side

Specification: The aluminized clothing is designed to provide protections against thermal and mechanical risks, Ideal for use in steel mills, casting shops, heat treating operations and foundries, The aluminized clothing's are tested according the following methods

Blue Eagle AL7 Aluminized Apron

Model: AL3

Material: Woven fabric of a modified acrylic fiber over a fiberglass core yarn, aluminized one side

Specification: The aluminized clothing is designed to provide protections against thermal and mechanical risks, Ideal for use in steel mills, casting shops, heat treating operations and foundries, The aluminized clothing's are tested according the following methods

Blue Eagle AL8 Aluminized Sleeves

Model: AL8

Material: Woven fabric of a modified acrylic fiber over a fiberglass core yarn, aluminized one side

Specification: The Aluminized clothing is designed to provide protections against thermal and mechanical risks, Ideal for use in steel mills, casting shops, heat treating operations and foundries, the aluminized clothings are tested according the following methods

Aluminized Wear

Blue Eagle AL145 Aluminized Protective Gloves

Model: AL145

Material: Woven fabric of a modified acrylic fiber over a fiberglass core yarn, aluminized one side

Specification: Providing protections against thermal and mechanical risks, Max.: 250 degrees C

Length: 14" (five fingers)

Blue Eagle AL165 Aluminized Protective Gloves

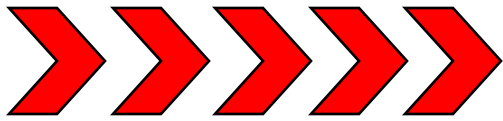

Model: AL165

Material: Woven fabric of a modified acrylic fiber over a fiberglass core yarn, aluminized one side

Specification: Providing protections against thermal and mechanical risks, Max.: 250 degrees C

Length: 16" (five fingers)

Traffic Safety

Safety Vest (Mesh Type)

Specification: High-visibility (HV) clothing, a type of personal protective equipment (PPE), is any clothing worn that has highly reflective properties or a colour that is easily discernible from any background

Safety Vest (Cloth Type)

Specification: With 2" width silver high visibility reflective tape horizontal bands around the torso, provides maximum visibility for safety. lightweight and durable, retains its color under toughest weather

Traffic Gloves

Specification: visibility that surpasses that of standard gloves, reflective gloves are ideal for traffic control, and they help protect emergency professionals.

Traffic Baton

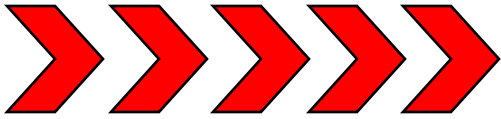

Specification: Baton light used for traffic for visibility to control traffic

Traffic Cone

Specification: Traffic cones are usually cone-shaped markers that are placed on roads or footpaths to temporarily redirect traffic in a safe manner.

Traffic Safety

Caution Barricade Tape

Size: 3" x 1000"

Specification: High visibility, non adhesive, lightweight, economical reusable, for marking physical hazards, traffic, etc. to prevent the accidents

Danger Barricade Tape

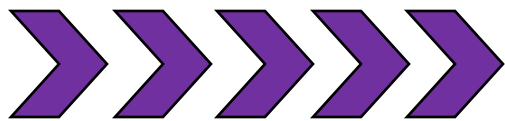

Size: 3" x 1000"

Specification: High visibility, non adhesive, lightweight, economical reusable, for marking physical hazards, traffic, etc. to prevent the accidents

Hella LED Buggy Whip

Specification: visibility that surpasses that of standard gloves, reflective gloves are ideal for traffic control, and they help protect emergency professionals.

Foot Protection

KING'S KR7000X Low Cut Safety Shoes

Description

Black tango print leather laced shoe.

Sizes: 5-12 US, no half sizes

SOLE CONSTRUCTION

Single density polyurethane sole

Oils and acids/alkalis resistant

Impact resistant carbon steel toe cap

Slip-resistant polyurethane (PU) outsole

Antistatic.

UPPER CONSTRUCTION

Non-woven fiber insole board

Full-length EVA insole made thicker for extra comfort

Taibrelle lining.

KING'S KWS701X Mid Cut Safety Shoes

Description

Black full grain printed leather laced shoe.

Sizes: 5-12 US, no half sizes

SOLE CONSTRUCTION

Single density lightweight and slip resistant polyurethane (PU) sole (SRC outsole) Oils and acids/alkalis resistant Anti-static

UPPER CONSTRUCTION

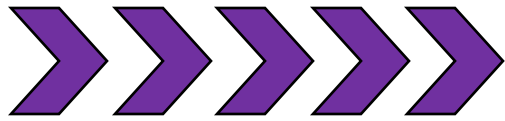

Breathable non-woven fabric lining Anti-static insole board

Extra wide 5-toecap provides maximum comfort for your toes

200 Joules steel toecap for impact and compression

resistance. Extra thick full length fabric-lined EVA foam insole

with shock absorption, anti-bacterial and anti-static properties.

Foot Protection

KING'S KWD901KX High Cut Safety Shoes

Description

Brown full grain printed leather laced shoe.

Sizes: 5-12 US, no half sizes

SOLE CONSTRUCTION

Dual density lightweight and slip resistant polyurethane (PU) sole (SRC outsole)

Oils and acids/alkalis resistant Anti-static

UPPER CONSTRUCTION

Breathable non-woven fabric lining. Anti-static insole board
Extra wide 5-toe toecap provides Maximum comfort for your toes. 200 Joules steel toecap for impact and compression resistance PUsion Insole: Extra thick full length fabric-lined PU foam insole with shock absorption, anti-bacterial and anti-static properties

KING'S KWD805CX Pull up Boots

Description

Brown full grain printed leather Pull-up boots

Size : 5-12 US, no half sizes

SOLE CONSTRUCTION

Lightweight & slip resistant dual density polyurethane (PU) sole with softer midsole to cushion shock impact (SRC Outsole)

Oils and acids/alkalis resistant

Anti static

UPPER CONSTRUCTION

Breathable non-woven fabric lining

Antistatic insole board

Scuff cap for toe bumper protection

Extra wide 5-toe toecap provides maximum comfort for your toes

200 Joules steel toe cap for impact and compression

resistance PUsion Insole: Extra thick full length, fabric-lined

PU foam insole with shock absorption, anti-bacterial and anti-static properties

Adela H-4501 Body Harness

Model number: H-4501

Standard: EN361: 2002 compliance

Specification: 45mm width polyester webbing, 1 x Dorsal D-ring, Front chest adjustable belt, Detachable waist belt, Both thighs quick fit buckles

Adela H-4538 Body Harness w/ Big Hook

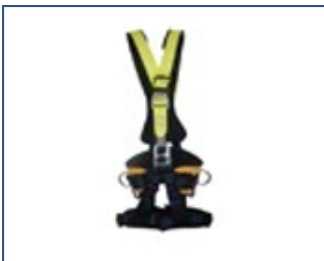

Model number: H-4538

Standard: EN361: 354 compliance

Specification: 45mm width polyester webbing, 1 x Dorsal D-ring, Front chest adjustable belt, Detachable waist belt, Both thighs quick fit buckles, CE 0229 EN354/355, Diameter 14mm x 1.5M, Screw-lock carabiner x 1, Hook H-3101 x 1

Adela HKW-4503 Body Harness

Model number: HKW-4503

Standard: CE 0321 EN361:358 2002 certificated

Specification: 5 anchors attaching points, 45mm width polyester webbing, Shoulder straps adjustable, Ergonomics back support pad, Waist support pad within 2 lateral D-rings, Additional attachments behind two hips, Both legs with support pad / adjustable buckles

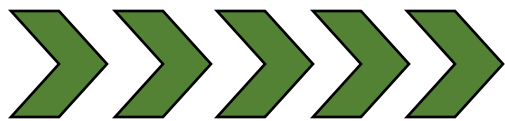

Adela HKW-4502 Body Harness

Model number: HKW-4502

Standard: EN361:358 2002 compliance

Specification: 5 anchors attaching points, 45mm width polyester webbing, Shoulder straps adjustable, Ergonomics back support pad, Waist support pad within 2 lateral D-rings / fasten by quick release buckle, Additional attachments behind two hips, Both legs with support pad with quick release buckles, Front chest adjustable belt, Front Chest 2 attaching points

Fall Protection

Adela H-5001 Body Harness

Model number: H-5001
Standard: EN361: 2002 compliance
Specification: 50mm width polyester webbing, 1 x Dorsal D-ring, Front chest adjustable belt, Detachable waist belt, Both thighs quick fit buckles

Adela CH-4501 Seat Harness

Model number: CH-4501
Specification: Adjustable leg loops allow suitable length, Detachable elastic thigh loop straps, Comfortable and pliable webbing minimize the pressure suitable for maximum waist size to 110cm(43")

Adela CH-4502 Seat Harness

Model number: CH-4502
Specification: Adjustable leg loops allow suitable, Waist pad with lateral gear loops, Detachable elastic thigh loop strap, Comfortable and pliable webbing to minimize the pressure suitable for maximum waist size from 85~110cm

Adela H-209 Lanyard(Rope) w/ Small Hook

Model number: H-209
Standard: CE 0299 EN354
Specification: Diameter 14mm x 1.5M, Screw-lock carabiner x1, Hook H-2101 x1

Adela H-309 Lanyard(Rope) w/ Big Hook

Model number: H-309
Standard: CE 0299, EN354
Specification: 1.5m Lanyard with 1x 53mm Opening Large Snap Hook & 1x Carabiner, Diameter 14mm x 1.5M, Loop at ends

Fall Protection

Adela EF-31 Lanyard(Rope) w/ Shock Absorber

Model Number: EF-31

Standard: CE 0299 EN354/355

Specification: Diameter 14mm x 1.5M, Screw-lock carabiner x1, Hook H-3101 x1, Single Lanyard w/ Shock Absorber and Big Hook

Adela EF-32 Lanyard(Rope) w/ Shock Absorber

Model Number: EF-32

Standard: CE 0299 EN354/355

Specification: Diameter 14mm x 1.5M, Screw-lock carabiner x1, Hook H-3101 x2, Double Lanyard w/ Shock Absorber and Big Hook

Adela WF-31 Lanyard(Webbing) w/ Shock Absorber

Model Number: WF-31

Specification: 45mm wide x 1.5M, Screw-lock carabiner x1, Hook H-3101 x1, Single Lanyard w/ Shock Absorber and Big Hook

Adela WF-32 Lanyard(Webbing) w/ Shock Absorber

Model Number: WF-32

Specification: 45mm wide x 1.5M, Screw-lock carabiner x1, Hook H-3101 x2, Double Lanyard w/ Shock Absorber and Big Hook

Fall Protection

Adela WFL-31 Lanyard(Webbing) w/ Shock

Model Number: WFL-31
Standard: CE 0299, EN354/355
Specification: 45mm wide x 1.5M, Screw-lock carabiner x1, Hook H-3101 x1, Single Lanyard w/ Shock Absorber and Big Hook

Adela WFL-32 Lanyard(Webbing) w/ Shock Absorber

Model Number: WFL-32
Standard: CE 0299, EN354/355
Specification: 45mm wide x 1.5M, Screw-lock carabiner x1, Hook H-3101 x2, Double Lanyard w/ Shock Absorber and Big Hook

Adela H-8621 Rope Grab w/ Lanyard (Small Hook)

Model Number: H-8621
Hook : H-2101 (18mm opening)
Chock: H-8706 (opening for 16mm diameter rope) Various choke hooks are available
Rope length : 35mm **Rope width :** 13mm

Adela H-8631 Rope Grab w/ Lanyard (Big Hook)

Model Number: H-8631
Hook : H-3101
Chock: H-8706 (opening for 16mm diameter rope) Various choke hooks are available
Rope length : 35mm **Rope width :** 13mm

Fall Protection

Adela H-8706 Rope Grab Open Type

Model Number: H-8706

Specification: Rope grab for 14-16mm rope. Guided fall arrester on rope, Weight capacity: 100kg

Adela H-117 Lineman Safety Belt

Model Number: H-117

Specification: Lineman safety Belt with Pole Strap

Adela H-132 Lineman Safety Belt (Big Hook)

Model Number: H-132

Specification: Lineman safety Belt with Pole Strap

Adela H-227 Lineman Safety Belt

Model Number: H-227

Specification: Electric tower climbing waist position belt, 1.2M max length adjustable, Fall arrest rope grab

Adela RFA-060 Retractable Fall Arrestor

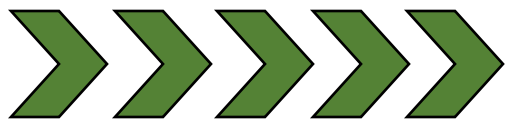

Model Number: RFA-060

Cable: Material 1-8/18" (35mm) Polyester webbing

Capacity: 4850lbs(21kN)

Length: 6M Attached with steel swivel Hook H-7102(CE0299 EN362:2004)

Specification: P.P. Housing and Drum, Lightweight & durable & resistant to corrosion, built-in galvanized steel swivel eye

Fall Protection

Adela RFA-060W Retractable Fall Arrestor

Model Number: RFA-060W
Material: 1-8/18”(35mm) Polyester webbing
Capacity: 4850lbs(21kN)
Length: 6M attached with steel swivel Hook H-7102(CE0299 EN362:2004)
Weight: 9.3lbs(4.2kgs)
Specification: Lightweight, durable and resistant to corrosion

Adela RT-025 Rescue Tripod (15M)

Model Number: RT-025
Cable Length : 15M Max Height : 2.2M
Specification: Designed for durability and light weight, the tripod is easy to set up and transport by aluminum section tripod, Cast Aluminum Head has an integral Stainless Steel Pulley to accommodate a winch with quickmount bracket

Adela Safety Rope (10MM x 200M)

Specification: Used to support emergency services personal and civilians during training, rescue and fire fighting

Adela Safety Rope (11MM x 200M)

Specification: Used to support emergency services personal and civilians during training, rescue and fire fighting

Body Protection

Leather Sleeves

Specification: Sleeves can be used independently or in conjunction with an apron or other garment to offer optimum protection of the lower arm and elbow

Cotton Sleeves

Specification: Sleeves can be used independently or in conjunction with an apron or other garment to offer optimum protection of the lower arm and elbow.

Reusable Cover-All Suit

Material: Cotton

Specification: Hooded, zipper front, comes with pockets, lightweight, color navy blue for general purpose.

Disposable Cover-All Suit

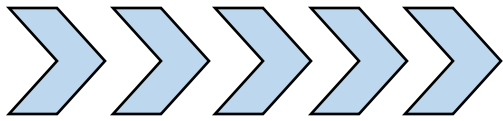

Specification: Polypropylene spunbonded material, hooded, zipper front, elasticized wrist, waist and ankles, lightweight, color white for general purpose.

Raincoat Jacket

Material: PVC

Specification: Water-resistant coat worn to protect the body from rain

Body Protection

Raincoat Pants

Material: PVC

Specification: Water-resistant pants worn to protect the body from rain

Raincoat Poncho

Material: PVC

Specification: Water-resistant coat worn to protect the body from rain

Raincoat Knee Length

Material: PVC

Specification: Water-resistant coat worn to protect the body from rain

Back Support

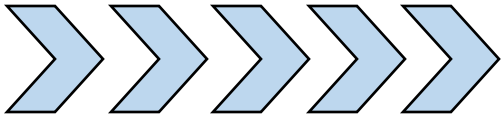

Specification: Adjustable belt tension and suspenders for comfortable fit, stretchable elastic straps, use to reduce repetitive back strain

Fire Blanket

Casing: Pouch or Case

Specification: Safety device designed to extinguish incipient (starting) fires. Consists of a sheet of fire retardant material which is placed over a fire in order to smother it

Body Protection

Maong Apron

Specification: Functional accessory to protect ones clothes and skin from incidental stains and marks

Leather Apron

Specification: Functional accessory to protect ones clothes and skin from incidental stains and marks

Maong Jacket

Specification: For safety purpose during industrial work

Leather Jacket

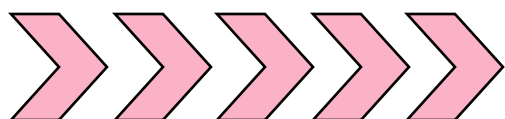

Specification: For safety purpose during industrial work

Maong Sleeves

Specification: Sleeves can be used independently or in conjunction with an apron or other garment to offer optimum protection of the lower arm and elbow.

Salisbury

Salisbury Pro-Wear, Arc Flash Kit, Premium Lightweight Coverall, Large, Fits Chest Size 42 to 44 in Fits Waist Size 36 to 38 in, 30 in Inseam, 88% Cotton, 12% Nylon, Nomex Thread, Navy Blue, Orange, 12 cal/cm² ATPV Rating, 2 Hazard Risk Category, Includes Arc Flash Hood with Face Shield, 12 cal/cm² AS1000HAT, Safety Glasses, ASBag, ASTM F1506, CE 0120 Certified, NFPA 70E Standards, Flame-Resistant Special Features

Durable

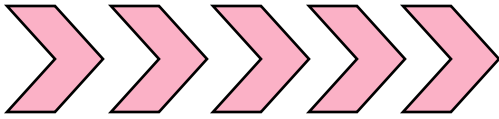

Highly Comfortable fabric allows for a generous fit to wear over your work clothing
 99.9% UV protection
 Keeps drier and cooler even in demanding conditions

ArcFlash ProtectionSalisburySK40M

Item	Arc Flash Kit
ATPV Rating	40 cal/cm ²
Color	Gray
Fits Chest Size	38 to 40 in
Fits Waist Size	32 to 34 in
Hazard Risk Category	4
Inseam	29"
Material	88% Cotton, 12% Nylon, Nomex Thread
Size	Medium
Special Features	Flame-Resistant
Type	Personal Protection
UNSPSC	46181508
Applications	For All Electrical Workers
Standards	ASTM F1506, CE 0120 Certified, NFPA 70E

Wisdom

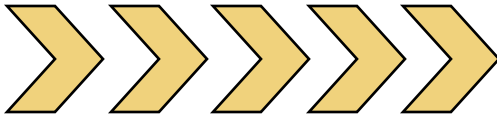

WISDOM

Model	KL5MS Standard	 <p>Wisdom KL5MS CapLamp</p>
Rated Capacity	7800 mAh	
Rated Voltage	3.7 V	
Continuous discharging time	13 h	
Main light LED working voltage	3.0 V	
Main light working current	640 mA	
Main light power	1.92 W	
Main light luminous flux	340 lm	
Lamp lighting degree (initial lighting in 1 m)	18000 lx	
Main light life span	100000 h	
Auxiliary light power	0.4 W	
Auxiliary life span	40000 h	
Short circuit protect time	< 320 μs	
Life span of the battery (Recharges)	1200 cycles (In reasonable working condition)	
Charging time	4-7.5H	
Dimensions	94 x 36 x 90 mm; 3.7 x 1.4 x 3.5 in (Size of the battery box)	
Main cable	1.4 / 1.65 m; 4.59 / 5.41 ft	
Weight	500 g; 19.40oz	

Wisdom NWB-20 Portable Charger

Features	NWB-20 Specifications
AC input	AC 100~240 V ± 10%, 0.24 A, 50~60 Hz
DC input	7~30 V, 1.7 A
DC output voltage	4.20 V ± 0.05 V (max)
DC output current	2000 mA ± 100 mA (max)
Size	116 x 76 x 56 mm; 4.6 x 3.0 x 2.2 in
Weight	215 g; 7.58 oz
Charging time for KL5M	4.5-6.5 h
Charging time for KL8M	6.5 h

Wisdom

Wisdom 3A Cap Lamp

Lamp format	Cordless (integral battery)
Power supply	Lithium Ion (Lilon) battery 3.7 V/6.2 Ah
Light modes	2 - Main and Auxiliary (Emergency)
Main LED duration	13 hours
Main LED output (brightness)	12,000 lux at 1m (211 lumens)
Charging time (recommended charger)	5 hours
Charging cycles	1,200 cycles (in good working conditions)
Total weight	175g
IP rating	IP68
Warranty	2 years (warranty terms of Wisdom)

Brightness Mode	HI	ME	LO
Continuous discharging time (h)	5	13	60
LED working current (A)	1.4	0.53	0.065
Light power (W)	4.2	1.59	0.18
Initial lighting degree in 1 m (lx)	25000	12000	1400
Light luminous flux (lm)	463	211	
Rated capacity	6.2 Ah		
Rated voltage	3.7 V		
Main light working voltage	3.0 V		
Main light life span	100000 h		
Auxiliary light power	0.4 W		
Auxiliary light life span	40000 h		
Short circuit protection time	< 320 μs		
Life span of the battery (Recharges)	1200 cycles (In reasonable working condition)		
Charging time	5 h		
Dimensions	84 x 69 x 50 mm; 3.3 x 2.7 x 2.0 in		
Weight	169 g; 5.96 oz		

Wisdom 4A Cap Lamp

Wisdom NWB-30 Charger

Features	NWB-30 Specifications
AC input	AC 100 ~ 240 V ± 10%, 0.2 A, 50~60 Hz
DC input	7~30 V, 1.6 A
DC output voltage	4.80 V ± 0.05 V(max)
DC output current	2000 mA ± 100 mA(max)
Size	114 x 79 x 35 mm; 4.5 x 3.1 x 1.4 in
Weight	170 g; 6.00 oz
Charging time for Lamp	3-5 h

ZOLL Products

ZOLL AED PLUS DEFIBRILLATOR (LIVE UNIT)

ZOLL AED PLUS DEFIBRILLATOR (LIVE UNIT) AED PLUS DEFIBRILLATOR with graphical cover

includes LCD screen showing voice prompt messages, device advisory messages, elapsed time, shock count and chest compression graph. Supplied with Public Safety PASS Cover, soft case, operators guide and five (5) year warranty + (2) year warranty if registered online.

(Replacement not Repair)

Inclusions :

- One (1) CPR-D Adult padz one piece electrode pad with Real CPR Help
- Ten (10) Type 123 Lithium Batteries
- Bag

AED Pro Automated External Defibrillator

AED Pro Automated External Defibrillator

A Flexible AED for Every Rescuer

The AED Pro® provides the support used by rescuers to nearly triple survival.¹ It provides the feedback both professionals and lay rescuers need to perform optimal CPR.

It features:

- Real CPR Help® to aid rescuers in delivering optimal compressions and improving the likelihood of survival
- See-Thru CPR® to reduce the length of interruptions by removing compression artifact
- A three-lead cable for basic monitoring using ECG electrodes
- Unique extended USB storage that allows immediate data transfer without leaving the scene

AED Pro Semi-Auto/Manual Includes:

- 1ea Soft Carry Case
- 1ea Rugged Over-Molded Outer Housing
- 1 ea Operator's Guide
- 5 Years Factory Warranty
- 1pair CPR Stat-padz HVP Multi-Function CPR Electrodes. Up to twenty four month shelf-life.

ZOLL Products

ZOLL's Full-Rescue AEDs feature CPR-D-padz

ZOLL's Full-Rescue AEDs feature CPR-D-padz[®], a one-piece, pre-connected electrode with Real CPR Help[®] feedback.

Ordinary AEDs require that the rescuer use two separate electrodes. By using CPR hand placement as the landmark, it is easy to place the CPR-D-padz on the victim quickly. The CPR-D-padz also lasts five years—the longest shelf life of any defibrillator electrode sold today

Real CPR Help

Inadequate compression rate and depth are common during CPR. Adult victims need at least 100 compressions per minute and at a depth of at least 2 inches (5 cm). Compressions must be done well to effectively move blood and oxygen.

The ZOLL AED Plus[®] converts compression data instantaneously from the CPR-D-padz and provides an adaptive metronome to help the rescuer with the proper rate and depth, saying "Push harder" or "Good compressions," as needed. It also shows CPR compression depth on the display screen. ZOLL's AED Plus is the only AED that helps the rescuer achieve the correct rate and depth of chest compressions during CPR. No other AED has both these capabilities.

Everything You Need for the Rescue

The CPR-D-padz comes complete with a CPR barrier mask, scissors, disposable gloves, a prep razor, a towel, and a moist towelette.

Duracell 123A Lithium Battery

The Zoll AED Plus takes Duracell Type 123 Lithium Batteries which are packaged in a set of ten (10) batteries.

The Duracell batteries have a five (5) year expiration date while the device is in stand-by mode and a shelf life of ten (10) years.

The AED Plus uses redundant circuitry, so if one set of five (5) batteries fails, the other five (5) are there for backup.

ZOLL Products

Pedi-padz II

Pedi-padz II

The Only Full-Rescue AED with Intelligent Pediatric Capability

The ZOLL AED Plus® Intelligent Pediatric Capability includes voice and text prompts that tell rescuers that Pedi-padz® II are connected, ensuring that the proper defibrillator electrodes are being used. When a cardiac arrest occurs, the fact is that only half of the victims will need a shock. The other half requires cardiopulmonary resuscitation (CPR).

Separate and specific algorithms for adults and children are used to analyze a victim's heart rhythm. The ZOLL AED Plus can defibrillate children up to eight years of age, using the Pedi-padz II electrodes. Separate energy levels also have been incorporated for pediatric patients. Electronics in the AED Plus adjust defibrillating energy levels automatically so that suitable doses are delivered accurately, when needed. With ECG analysis designed specifically for a pediatric heart rate, coupled with appropriate defibrillation energy levels, the AED Plus can handle both adult and pediatric rescues.

Pedi-padz II electrodes are designed especially for use with the AED Plus, and are also compatible with professional defibrillators, allowing continuity of care. The AED Plus does not rely on a resistor or other hardware in the wires to reduce delivered energy. Anatomical diagrams on the package facilitate proper pad placement.

ZOLL Products

The ZOLL® R-Series BLS

The Zoll R Series BLS Defibrillator includes Guidelines 2005-compatible AED with Real CPR Help, manual override, OneStep system, code- readiness testing system, rectilinear biphasic technology, compact flash card slot, 3 lead CG cable with AHA markings, built-in port, integrated AC Power, (120 VAC/ 60 Hz) and optional parameters.

Warranty: 5 Year Hospital Warranty.

The R Series BLS shows first time responders a simple, one-button AED interface. When the Code Team arrives, a member can simply press a button to turn the BLS device into a full-function manual defibrillator. If pressed, SpO2 becomes functional, and if installed, the pacing function is revealed. This entry _level model allows hospitals with tight budgets to deploy R Series technology. R Series BLS is particularly good for low-acuity area, where advanced capabilities are rarely needed.

R Series is the first device to provide a pediatric electrode with a built-in CPR sensor to help when performing CPR on a child. Because children are not small adults, all the R Series defibrillators feature a pediatric analysis algorithm that is activated when OneStep Pediatric CPR Electrodes are attached.

Features:

CPR Help® special technology – OneStep™, CPR Stat-padz®, and CPR- D-padz® electrodes with real-time CPR feedback.

Consistent – The R Series defibrillators each use the same uniform operating system, cables, paddles, batteries, internal handles, and electrodes common to all ZOLL manual defibrillators

Adaptable – Mix and match different R- Series products by clicking a button;

Rectilinear Biphasic™ waveform (RBW) technology with superb biphasic waveform;

Audio and Video signalling;

CPR Dashboard™ – Detailed real-time display of CPR quality metrics that uses Real CPR Help® technology;

See-Thru CPR® – Minimizes pause time during CPR and increases CPR fraction by filtering out CPR artifact;

High-current defibrillation – Delivers optimal treatment for all of your patients

ZOLL Products

Zoll R Series Plus

The Zoll R Series Plus Defibrillator with Expansion Pack combines the simplicity of the BLS R Series Defibrillator and can transform into an ALS Defibrillator for advanced life support.

Features:

- Real CPR Help.
- See-Thru CPR filter and compression index.
- OneStep Electrode Technology.
- ECG 3-lead cable with AHA markings.
- OneStep system with CPR cable.
- Code readiness testing system that self-tests over 100 parameters.
- Flexibility to transform from BLS to ALS.
- Integrated AC power (120 VAC / 60 Hz).
- Built-in test, compact flash, and USB port.
- WiFi (802.11) compatible (*requires modem).

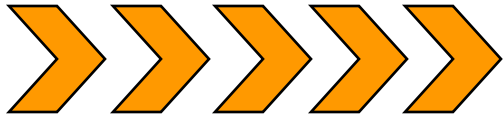

Zoll AED Plus Demo Kit

Zoll AED Plus Demo Kit

- Zoll carry bag
- Manikin torso with head
- One CPR-Demo Pad
- Simulator
- Velcro strips to attach pads to manikin, and one “Y” cable with simulator connector

*The demo kit cannot be used with the Zoll AED Plus Trainer, but only with the AED Plus Simulator and live Zoll AED Plus.

Honeywell Fenzy / Fire Rescue

Fenzy (EEBD)

Fenzy Bioscope 15mins EEBD C/W 3L 200BAR Steel Cylinder, Honeywell (Part of National CERT Equipment Supply)

Light, compact and easy to use, our Emergency Escape Breathing Apparatus (EEBA) are perfectly adopted to confined spaces, marine, industrial and Oil & Gas applications. They are available with duration of 10 or 15 minutes.

Key Features:

- Light and compact
- 10 to 20 mn autonomy depending on the model
- Alarm whistle positioned next to the ear
- Steel and composite cylinders available

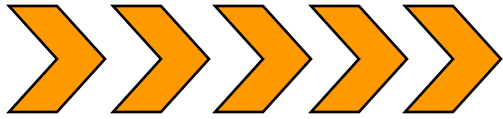

Honeywell EN T8000 SCBA

Sperian's new series of SCBAs certified by EN standard — the T8000 EN SCBA. It strictly passed 1.2 million continuous breathing tests & provides high reliability & stability.

Includes:

- EN 137-2006 certified SCBA.
- Pano Mask
- Passed 1.2 continuous breathing tests, provides high reliability & stability.
- Light weight, total weight only 10.4g (including 3.8 Kg cylinder), suitable for long time wearing.
- High technology reducer design, simple & stable, easy to maintain.
- High efficiency rescue outlet provides high air flow for rescue purpose.
- Built in High Pressure hose with exposure hole outside, ensures user safety.
- Chest whistle provides over 90dB alarm.
- Flexible Banjo connector provides more flexibility when wearing the demand valve.
- Carbon Fiber Composite 6.8L Cylinder
- Type 1 SCBA

Honeywell Fenzy / Fire Rescue

Fenzy Aeris Comfort SCBA (Type 2 SCBA)

Self Contained Breathing Apparatus designed for shipping, where such devices are mandatory. It is a user- friendly apparatus allowing a safe and comfortable breathing. Compliant with the most recent MED, SOLAS and AS/NZS 1716 standards.

Lite Force Helmet

Lite Force Helmet HT-LF2-HDO

Lite Force Plus Modern helmet for structural fire fighting operations. Provides advanced FYR-glass shell technology. Improved internal components. Good fit and ride. Full choice of NFPA 1971, 2007 edition and/or OSHA compliant eye protection system. Ear covers: yellow Nomex®/FR cotton.

Certification: NFPA 1971

Honeywell Wristlet Gloves

Honeywell Wristlet Gloves Model GL-7500mk

An economic double chromium-tanned suede leather that meets the thermal and durability requirements of NFPA 1971.

Certification: NFPA 1971

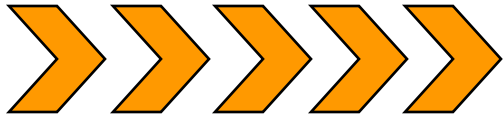

Ranger™ Series Boots

Ranger™ Series Boots Model 1600

Insulated lightweight model with wool felt lining. Roomy steel toe provides extra comfort, and steel bottom plates and shanks offer unmatched impact/ compression and puncture protection.

Certification: NFPA

Honeywell Fenzy / Fire Rescue

FE2000 Turnout Gear

Honeywell FE2000 Turnout Gear

Outer Shell: Nomex Delta T 75% Nomex (Meta Aramid), 23% Kevlar (Para Aramid) and 2% P-140(Carbon Fiber) 220 +/-11 g/m2.

Moisture Barrier: Stedair 3000e®- Aramid spunlace laminated to breathable PTFE membrane.

135±15g/m2

Thermal Barrier: Meta/Para-Aramid felt quilted to 50% Nomex 50% FR- Viscose woven fabric

Certification: EN469-2005, incorporating amendment A1:2006;

XFRPAC00006 Turnout Gear

MorningPride® RANGER™

Ranger-XFRPAC00006 Turnout Gear

Tough, rugged, made to fit each unique firefighter, RANGER™ turnout gear protects through the roughest of calls. Offering you a wide variety of options so you can custom design your gear to serve your specific needs, RANGER™ gear is comfortable and light, making it the optimal choice for budget-conscious fire departments who do not want to compromise on quality or protection.

Certification: NFPA 1971

VE-XFRPAC00008 Turnout Gear

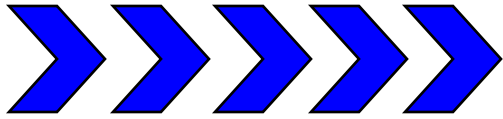

MorningPride® VE Gear

VE-XFRPAC00008 Turnout Gear

VE Gear was developed to deliver value-engineered turnout gear fully certified to NFPA standards, at a price that meets the needs of more budget- restrained departments. It offers two closure styles, both fully equipped with the necessary options to ensure safe and functional performance. With VE Gear you know you are getting tough, reliable gear that will not compromise protection.

Certification: NFPA 1971

Eye Wash

Fendall Porta Stream

Model Number: Porta Stream I

Solution: Versatile flushing fluid options include Sperian Saline concentrate, Sperian Water Additive, 1 gallon container of Sperian Saline solution Flow Duration: 6 minutes

Dimension: 15 1/2" L x 22 1/2" H x 13 1/2" D

Capacity: 6 Gallons

Maintenance: Replace Sperian Saline solution every 6 months, replace Sperian water additive every 4 months

Porta Stream II

Model Number: Porta Stream II

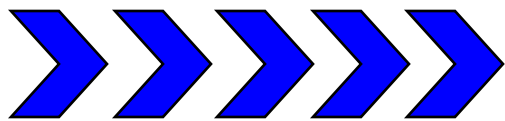

Solution: Versatile flushing fluid options include Sperian Saline concentrate, Sperian Water Additive, 1 gallon container of Sperian Saline solution Flow

Duration: 15 minutes

Dimension: 19 3/4" L x 24" H x 19" D

Capacity: Large 16 gallon (60.5L) capacity permits thorough flushing by providing 0.4 gpm over the entire 15-minute flushing period required by ANSI Z358.1-2004

Maintenance: Replace Sperian Saline solution every 6 months, replace Sperian water additive every 4 months

Eye Wash

Eyesaline

Model Number: Eyesaline

Available Sizes: 8oz, 16oz, 32oz, 70oz, 180oz

Specification: Sealed, sterile, bottles contain Sperial Saline — a buffered, saline solution superior to tap water for emergency eye care. Blow-fill-seal bottle are tamper resistant yet easily removed in an emergency.

Expiration: Bottle have 36 month shelf life from date of manufacturing.

EW6

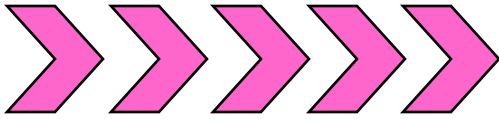

Model Number: EW6

Material: PE

Size: 21 cm (H.) x 7 cm (W.)

Specification: Provide immediate help for eyes

Usage: Keep filled with sterile water; when your eyes are infected with chemical spray, keep pushing/squeezing the body of bottle to pour the water out into your eyes for thoroughly, cleaning

Flexovit

Cutting, Grinding, Polishing -BF27

Flexovit "All in 1" benefits:

- cutting light grinding and polishing with one single product no
- more time loss due to machine or product changes
- the fine grit provides an excellent and uniform finishing result
- extreme long wheel life compared to conventional products low
- vibration; comfortable operation
- free of iron, Sulphur and chlorine
- very smooth grinding result with an incredible clean surface low
- cutting temperature due to special filters
- and it's from Flexovit, so no need to question quality

Maximum safety due to 3 layered strong reinforcements

Use the new "All in 1" from Flexovit to cut steel and stainless steel plates tubes and other application quickly, easily and very smoothly. The wheel cuts most materials like many dedicated cutting wheels.

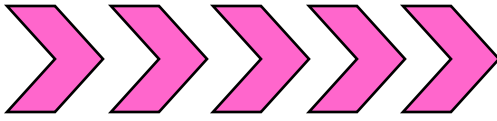

Use the same wheel at a 30° angle for light grinding jobs. The "All in 1" give a nice smooth grinding result and an incredible clean surface. The triple layer reinforcement of this advanced wheel guarantees maximum user safety on grinding jobs.

A 15° working angle offers users of the "All in 1" a third function. The fine Grit together with light pressure provides an excellent and uniform polishing result.

SHAPE SPECIFICATION SYSTEM

		
Depressed center grinding wheels. Thickness from 2.2-10mm. Available in diameters 76-230mm for hand-held machines. Application: Grinding	flat cutting-off wheels. Available in diameters 76-406mm for hand-held machines and 300-406mm For stationery machines. Application: cutting-off	Depressed center cutting-off wheels. Available in diameters 76-230mm Application: Cutting-off

METAL RING WITH VALIDITY DATE

V = validity date (production quarter + 3 year)

	V01	V04	V07	V10
	1st Quarter	2nd Quarter	3rd Quarter	4th Quarter

Operating Speeds

Flexovit products are designed and tested for certain applications and operating speeds. Choose a wheel suitable for the application material. Suitable materials are indicated on the wheel label. Before mounting the grinding or cutting-off wheel on the machine, Ensure that the operating speed of the machine does not exceed the maximum operating speed as it is marked on the product.

SPEED CONVERSION FOLLOWING EN 12413

Wheel diameter (mm)	Maximum peripheral operating speed in m / s		
	63	80	100
50/51	24100	30600	38200
63/65	19100	24300	30250
76	15850	20150	25150
80	15100	19100	23900
85	14200	18000	22500
100/102	12100	15300	19100
115	10500	13300	16650
125	9650	12250	15300
150/152	8050	10200	12700

Picture	Description
	<p>ZOLL M Series</p> <p>The Zoll M Series combines a defibrillator, ECG display, advanced monitoring capabilities, and noninvasive transcutaneous pacing (NTP) with communication, data printing and recording capabilities in a single lightweight portable instrument. The M Series has been designed for all resuscitation situations and its small, compact, lightweight design makes it ideal for accompanying patients during transport. It features CPR monitoring by evaluating the rate and depth of chest compressions while providing feedback to the rescuer. When equipped with a PCMCIA card, the Zoll M Series defibrillator records ECG and virtually all device data when the device is turned on. In addition, voice data from any incident around this device can also be recorded.</p> <ul style="list-style-type: none"> • Manual • Delivers up to 360 joules • into a 50 ohm impedance. • ECG Monitoring with 3 or 5 • lead patient cable. • Up to 2.5 hours of • monitoring on battery • power. • Integrated CPR assistance.
